

## Request for Good Faith Estimate of Medical Services

To provide cost information for services not yet received, each of the providers and facilities associated with the service will need to give a “good faith” estimate of the services. As such, this estimate will be as accurate as the information provided on the form.

### Instructions

To request information about the cost for proposed medical services, please complete as much information as possible in the form on the next page. Some of the information will come from your provider. If your service requires more than one provider, each one will need to fill out the information related to the service they will provide. The accuracy of the estimate will depend on how accurate the information is on the form.

### How to submit the form to us:

Please fill out the member information in Section 1 completely. Your provider should fill out or give you the complete information in Section 2 and 3 (if applicable).

- You can mail the form to: Fallon Health, Attn: Claims Department, 10 Chestnut St., Worcester, MA 01608
- You can fax the form to: 1-508-368-9436
- You can scan and email the form to: ClaimEstimator@fallonhealth.org

*(I understand that information transmitted to and from me by email is unencrypted and as such is not secure. I understand that as a result, it may be possible for others to intercept the information sent and received.)*

### What we will send back to you:

We will fill in the costs in this form and send it back to you in either an email or through the mail.

You can select the way you would like to receive it.

### Important information about this estimate:

The cost estimates shown on this form are good faith estimates based on the information available to Fallon Health (or its subsidiary Fallon Health & Life Assurance Co.) at the time the request was submitted. This includes, but is not limited to, information provided on this form to identify proposed services; member eligibility and enrollment status; dollar amounts accumulated towards deductibles and out of pocket maximums; and contract arrangements in place between the plan and network providers. If the proposed services shown on this form do not accurately reflect the services that are ultimately billed, or if any other information has changed between the time of the request and the time of service, the cost estimates shown on this form will no longer be valid. The cost estimates only reflect those services listed on the form, and assume that the member has obtained any referral or authorization that may be required. The cost estimates also do not take into account any unforeseen services that may arise out of proposed services. A member’s financial responsibility may vary from the cost estimates provided should unforeseen services be received and billed. On an estimate for an inpatient service, Fallon will assume the patient will be discharged home. Note that for many types of services, there are typically separate charges from multiple providers. For example, there may be separate charges from facilities, anesthesiologists, or radiologists.
